HOW TO FIT A CUSTOMER'S GRIP SIZE

Most golfers play "Standard" grips yet fitting for the correct grip size can increase comfort and help reduce grip pressure. Overall, when it comes to grip fitting, comfort is always paramount and a grip that "feels right" is what's most important.

GRIP SIZE GUIDE

GLOVE SIZE	RECOMMENDED GRIP SIZE
Men's Small	Undersize or Standard
Women's Small/Medium	Undersize or Standard
Men's Medium or ML	Standard
Women's Large	Standard
Men's Large	Midsize
Men's XL or 2XL	Midsize or Jumbo

Adding layers of tape will also incrementally increase a grip's size. Each layer of tape is equivalent to ¼ grip size, allowing you to fine-tune feel to suit any preference.

GRIPS AND WRAPS

- 1 to 3 Extra Wraps
- 1 to 3 Extra Lower Wraps
- Grip Logo Down
- Grip Logo Down + 1 to 3 Extra Wraps
- Grip Logo Down + 1 to 3 Extra Lower Wraps
- Uninstalled / In Box
